FOR IMMEDIATE RELEASE

**UNITED WAY OF GREATER UNION COUNTY DELIVERS
PRESCRIPTION DISCOUNTS TO UNION COUNTY RESIDENTS**

Free, easy to use prescription discount card can deliver significant savings to anyone, regardless of their insurance

Union County, NJ – December 2017 – United Way of Greater Union County and FamilyWize Community Service Partnership, an organization focused on improving people's lives by providing access to affordable prescription medications, announced that local residents have access to a free, easy to use prescription discount card that to date has helped over 10 million Americans save more than \$1 billion on their prescriptions.

"It comes as no surprise that many families are struggling in an uncertain economy and no one should be forced to choose between paying for food, rent or medicine because of the high cost of prescriptions. We are happy to continue our partnership with FamilyWize to distribute free prescription discount cards to everyone in Union County", said James Horne, Jr., President and CEO, United Way of Greater Union County.

FamilyWize cards can immediately lower the cost of medicine by an average of around 40 percent for people without insurance or who take medications not covered by their plan. Just by presenting the FamilyWize card or mobile app at their local pharmacy, customers save on the cost of their prescription medicine, no strings attached.

"So many people are struggling with the high cost of medicine and need help right now. The Free FamilyWize Prescription Discount Card can provide immediate savings on prescription medicines, with no eligibility requirements or hidden fees," said Susan Gilmore, Executive Director of Community Engagement at FamilyWize.

The Free FamilyWize Prescription Discount Card can be used by anyone, including people without insurance and those with insurance who have high deductibles or take medications not covered by their plan. The Free FamilyWize Prescription Discount Card has unlimited use, does not require any personal information from the user and has no eligibility criteria.

To take advantage of the savings that FamilyWize offers, consumers can print a card from uwguc.org/familywise, call 1-800-222-2818 to request a card to be sent to them, or download the free FamilyWize app.

About FamilyWize

FamilyWize is a community service partnership focused on improving the health and wellbeing of individuals, families and communities. Through our partnerships with United Way and thousands of community organizations, government agencies, pharmacies, health systems and businesses, we are making **prescription medications** more affordable and more accessible. By aggregating large groups of patients, FamilyWize advocates and negotiates for deep discounts on prescription medications which it then passes on in full to patients. The Smart Way to Save on Prescriptions.

Income: Help Families Achieve Self Sufficiency

- Medical costs and debt – In 2014, 35% of adults had difficulty paying their medical bills.¹
- Poorly controlled diseases – 35 million people did not fill a needed prescription in 2014 because of cost.¹
- Employment does not equal insurance – 85% of uninsured Americans live in a family with at least one full- or part-time worker.²

Education: Improve High School Graduation Rates

- Medication adherence – An estimated 50-88% of children don't adhere to their medication.³
- Drop out rates – 19% of youth surveyed dropped out of school in part to help earn money to support family members.⁴

Health: Provide Affordable Medication

- High deductibles – As of 2014, 43% of adults said their deductible was either somewhat difficult, very difficult, or impossible for them to afford.⁵
- High medication cost – 57% of people polled reported taking potentially dangerous steps to curb their medication costs, including not filling a prescription, skipping doses, or taking expired medication.⁶
- Prescription savings option – Nationally, FamilyWize has helped over 10 million people by saving them more than \$1 billion on their prescription medications through January, 2017.⁷

MEDICINE CABINET USER GUIDE

Need to find the best price for your prescriptions at your preferred pharmacy? Here's how to do it.

1

Single Drug Search

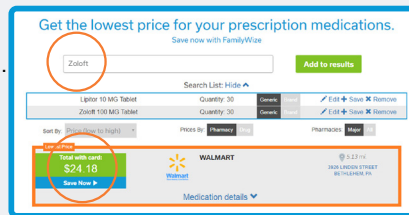

On the Drug Price Lookup page type in your drug and click "See your savings". Your drug appears in the Search List with the lowest price and specified pharmacy listed below.

2

Multiple Drug Search

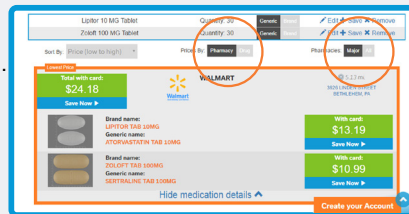

To search another drug, type in your drug and click the "Add to results" button. Your second drug will also appear in the Search List. The **total price** of both medications appears in the green box below. To download a card and begin saving, just click on the blue "Save Now" button directly below.

3

Pharmacy vs. Drug Major vs. All

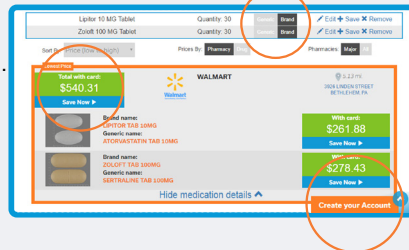

The "Pharmacy" button lists the pharmacy with the best total price for your medications with a breakdown of the price of each drug at that specific pharmacy. The "Drug" button lists your drugs with the best price first located at different pharmacies. Have a favorite pharmacy? "Major" lists all of the major pharmacies in your area while "All" also includes independent pharmacies closest to you.

4

Generic vs. Brand Prices

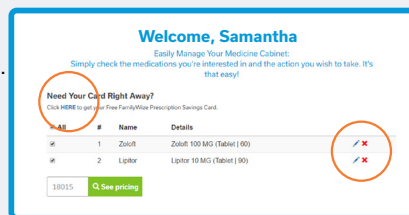

You can view your drugs with the discounted price by selecting "Generic" or view the full price by selecting "Brand". The cumulative price will be displayed in the green button under "total with card". Select the orange "Create your Account" button to create your Medicine Cabinet, where you will save all your drugs for future searches.

5

Your Medicine Cabinet

By selecting "Create your Account" you can create a personalized Medicine Cabinet where you can store multiple drugs that can be updated at anytime. Need a card right away? Just click the link to print a card and use it when you go to the pharmacy to get the best price for your medications.

6

Your Account

Once you create your account, you can access many helpful features that are available to you through your Medicine Cabinet. First sign in by selecting "Your Account" on the Medicine Cabinet link in the upper menu. You will see an overview of your saved medications that will be stored until you remove them. You can also edit your drugs to switch the dose, strength and quantity. You can store up to as many as 15 medications. Once your medications are stored, select "All" or select individual drugs, then hit "Search Now" to begin your search for the lowest prices at your recommended pharmacies.
